The base was a simple one. In the back, Ovsienko Il Russo Corso Base Pdf 192. Great news for all you UK based vape fanatics who have been waiting impatiently for the arrival of the Roo V8! We are now officially sold out of the 6V - 110W Big Daddy V8 Roo V8. I'm extremely happy with the pre-order sales of the previous versions but now we are sold out on the UK side I can finally move on to other projects with the Roo V8. Here is a quick update on the Roo V8's in the states: V8 - Big Daddy The Big Daddy V8 has been available in the states for a while now but my friend Dave Kupka got a hold of one while the feds weren't looking and decided to post some cool video of it in action. In the states it retails for \$149.99 and is available here. V8 - Roo V8 On February 26th I am launching my own customized Roo V8 and I think it will be the first of it's kind. This unique version of the V8 will be called the "Plain Jane" and will have all the same specifications as the Big Daddy V8 but will not be available in a Big Daddy packaging. The Plain Jane will be available for \$119.99 here. Roo V8 - Official Unboxing Video I have been holding onto this video for a while now and it is finally here. This is a great unboxing video of the Roo V8 and I do a nice job of explaining all of the good and bad about the V8 and the V8 and the Roo V8. I hope you enjoy this video and it gives you a better idea of what the Roo V8 can do. Roo V8 - Price I am trying to keep the price of the V8 as low as possible and that is why I am holding it back. I want people to really go hands on and enjoy it before it hits the market. I do know that this will be a limited run so if you want to get in now, jump on it while you can. I may lower the price in the future so you will have to stay tuned to this page for updates. The Roo V8 will be available for \$119.99 here. Roo V8 - Accessories 82157476af
